Webinar Overview

The **H.O.P.E. Leadership Framework** — built on Honesty, Ownership, Purpose, and Empathy — is a proven model for managers and executives who want to create lasting cultural change. In this 90-minute live session, Jason Dinesen walks through each pillar with real-world case studies drawn from Fortune 500 companies, healthcare systems, and government agencies.

This is not a motivational talk. Every concept comes with a practical tool you can deploy in your next team meeting — a conversation guide, a feedback template, a goal-alignment exercise. You will leave with a personal action plan tailored to your leadership context and organisation size.

The session closes with a live Q&A where Jason addresses specific challenges from attendees. All registrations include the slide deck, a supplementary reading list, and a certificate of completion for your CPD records.
